

Smart Touchscreen Weighing Models and Variants

FreshBase T with customer display

METTLER TOLEDO FreshBase T with customer display is a high-performance counter scale for service counters – whether in supermarkets, butchers' shops or local deli stores. The 7-inch color customer display with brilliant LED backlight technology guarantees extremely high viewing angle stability, anti-glare properties and excellent brightness and contrast values, thus ensuring optimal legibility and reinforcing customer trust.

	Tower with customer display			
Weighing range	3/6 kg*	6/15 kg	15 kg*	12 kg*, **
Increments	1/2 g	2/5 g	5 g	2 g
Minimum capacity	20 g	40 g	100 g	40 g

EG: Printout under minimum capacity possible, but not with price marking

FreshBase T with customer display and double printer*

METTLER TOLEDO FreshBase T with customer display and double printer with auto-cut function is a multifunctional counter scale which combines sales activities at service counters and pre-packing for self-service applications in a single device. Service employees can switch between receipt and label printing without needing to change the paper roll. As a result, a lull in sales at the service counter can be used to pre-pack items.

	Tower with customer display and double printer	
Weighing range	6/15 kg	15 kg
Increments	2/5 g	5 g
Minimum capacity	40 g	100 g

EG: Printout under minimum capacity possible, but not with price marking

FreshBase T without customer display*

METTLER TOLEDO FreshBase T without customer display is a self-service scale which is easy and intuitive for customers to use based on a convenient and ergonomic touchscreen. The On/Off button is placed out of sight on the underside of the device, which prevents the scale from being inadvertently or willfully switched off. Thanks to the anti-stick coating on the device housing, labels can be removed easily without leaving a residue.

Weighing range	6/15 kg	15 kg
Increments	2/5 g	5 g
Minimum capacity	40 g	100 g

EG: Printout under minimum capacity possible, but not with price marking

FreshBase C*

METTLER TOLEDO FreshBase C is a robust, high-performance compact scale with a 7-inch color customer display which is ideal for use at hot-food counters and service counters where space is limited. Thanks to the flat design, it does not obstruct the line of sight between sales employees and customers, plus it allows employees quick and easy access to products in the display case.

	Compact with customer display		
Weighing range	3/6 kg	6/15 kg	15 kg
Increments	1/2 g	2/5 g	5 g
Minimum capacity	20 g	40 g	100 g

EG: Printout under minimum capacity possible, but not with price marking
